

## Uniform Information Sheet

### Adjusting the length of the pants

Have the band member put on their shoes, then find the correct length for the pants. They should look like this:

Lightly steam the fold, placing a damp cloth over it, then sew the fold inside the pants on each side. **Do not cut the pants or use a sewing machine.** Sew only into the seam allowance, not through the outer fabric of the pants:

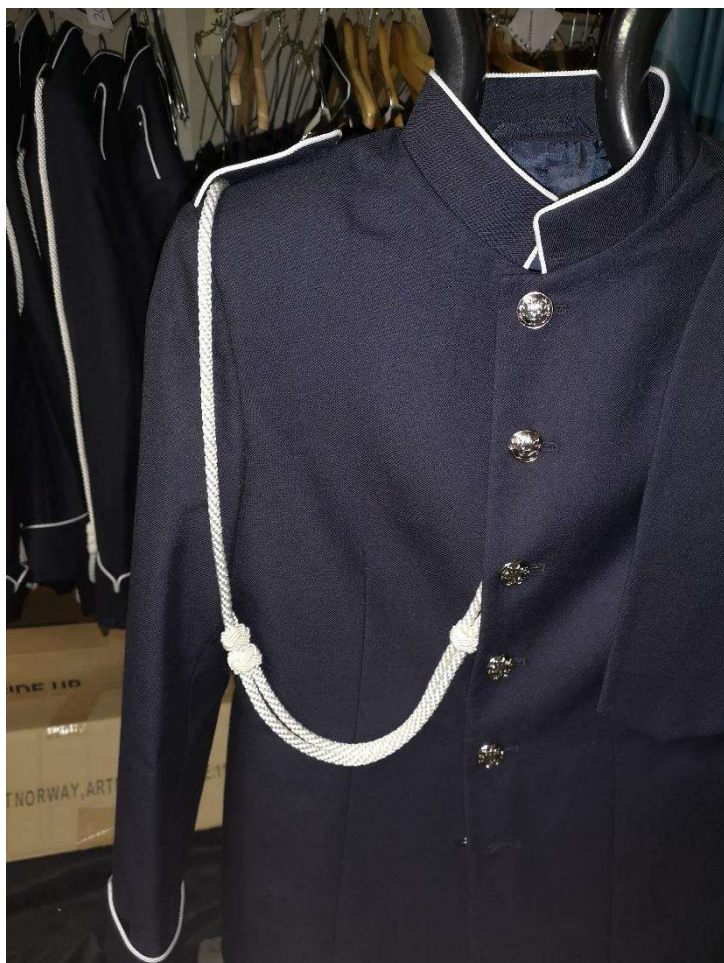

If needed, you can also sew the front and back of the pants (right next to the fold at the front and back works well). Again, do not sew all the way through the pants, just enough to catch a few threads on the inside.

**Attach the cord on the opposite side of the medal holder:**

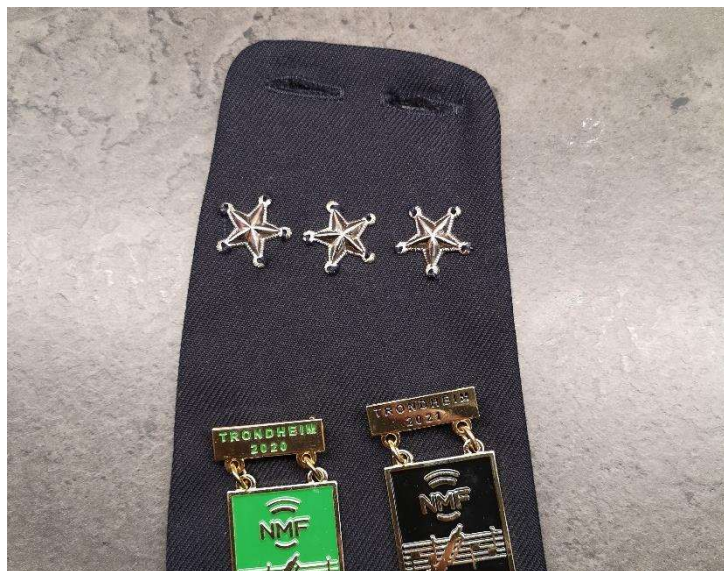

# Klæbu Skolemusikkorps

## Medal Holder

Small type (for jackets size 6 to 14 years). Stars are attached like this:

Mangfold- og inkluderingsstøtta
